About Us

Greater Rochester Robotics (GRR) FIRST Robotics Competition Team 340 was founded in 1999 by Jason Rees a Technology teacher for Churchville- Chili Highschool and Chris Mikus and John Simmons ,who worked at Nortel Networks. Our team was originally open to both Churchville-Chili Students as well as the children of Nortel Networks Employees. Shortly after we started networking and allowing kids from neighboring districts to join our team. Our name, Greater Rochester Robotics was selected to reflect our diverse group of students. Over our 25+ years of operation we have maintained our diversity by allowing students to be part of our team if their home district does not have a FIRST robotics team.

GRR averages about 35-40 students per year. Our team has a dedicated group of more than 20 mentors, most of which are parents of current and former team members, in addition to many team alumni who return to mentor. There are 2 program advisors who work for the school district to help enforce school policies, plan activities and trips as well as two marketing coordinators who help facilitate and help with recruitment of new members, mentors and our teams social media presences.

GRR has grown from a club that worked during the six-week "Build Season" to a program that works year round and that strives to be an active member of it's local community.

Meet Our Team Leaders

✧ Jason Rees

"I dont build robots, I build kids who build robots"

Contact me at: jrees@cccsd.org

✧ Joel Ferrigno

"The future of STEM is built on collaboration, creativity, and the courage to fail forward together."

Why Donate

By donating to our team you will be:

Supporting Rochester's Future college students and work force: The majority of students on this team graduate and go on to study in the Science, Technology, Engineering and Math fields. Alumni of Team 340 have become engineers, scientists, teachers, software programmers, graphic artists and more after going through this program.

Supporting our community: Our team participates in many community service events throughout the year. Most recently, we have participated in numerous charity walks, clothing and book drives, volunteering the gardens at our school and helping local businesses.

Supporting a historically- successful team with broad exposure: Without a doubt, Team 340 is one of the most highly-awarded, and highly respected FIRST Robotics Competition teams in the state. Throughout our 25+ years, we have been recognized for our teams excellence throughout the country and as well as internationally traveling to many different states. Some of our awards include Gracious Professionalism, Best Offensive Robot, Industrial Design, Excellence in Engineering, Industrial Safety, Engineering Inspiration, Chairman's FIRST Dean's List Finalist, and Creativity award.

Sponsorship Package

\$10,000+

Title Sponsor

- A title sponsor is the company that has the strongest partnership with GRR; this goes to the company that donates the most funds.
 - A title sponsor receives all the benefits listed below, plus GRR will help with community service efforts and demonstrations at the company
 - Title sponsors can travel to demonstrations with the team presenting company information
-

\$9,000+

Platinum

- Company is thanked during competitions
 - Company is listed as an official sponsor through FIRST
 - Company's logo is on team shirts, Robots and banners
 - Listed on GRR website & mentioned on GRR's social media accounts
-

\$5,000 -
\$8,999

Gold

- Company is listed as an official sponsor through FIRST.
 - Medium logo on Banner, T-shirts and Robot
 - Listed on GRR website & mentioned on GRR's social media accounts
-

\$500
\$4,999

Silver

- Company's name is on T-shirts and banners (large font)
 - Company's name is listed on GRR website & mentioned on GRR's social media accounts
-

\$500

Bronze
